## EXPERIENCE

TECHNOBUNNIES.COM (CAPE TOWN) AND  
UPWORK (EVERYWHERE) - Technical Writer  
/ Project Manager

since January 2015

Technical writing (Documentation, Case Studies, HowTos, Articles), Editing & Reporting (including project-managing data analytics). I liaise with developers, product managers, and CEOs to create technical copy targeted at the audience, whether user- or developer-level. By interviewing the Subject Matter Expert, or using software, I gain an understanding of my client's product or service and apply text or images to ensure they are communicated with clarity.

HIGH SCHOOL SCIENCE LONDON AND  
CAPE TOWN - Head of Department

2005-2015

Promoted in 2nd year. 4 long term contracts teaching Science at all levels. Scaffolded technical concepts to the audience's level. Accommodated range of audience knowledge and learning styles. I managed peers, budgets, time, and stress (constant rolling hard deadlines).

OBERTHUR SMART-CARDS - System Design  
Analyst

2002

I liaised between business & development teams negotiating functionality changes; database design (Oracle) & design changes; software testing & roll-back. The unit was disbanded when sim-reading keyboards were not widely adopted as predicted.

PEOPLEBANK.COM - Software Tester

2001

Testing updates & managing roll-backs of this web-based job application and candidate management system (Oracle). I liaised between the sales & development teams; negotiating design changes with developers promised by the sales team to our
